**Subject:** 14th AOC Amendment for FY 2014 USGS monitoring funding

ARCO folks,

Just to be clear, when ARCO has obtained signature on the 14<sup>th</sup> amendment referenced above, which Bill told me would likely be later this month or early next month, send the original signature page back to me at the Montana Office. I will put all signatures together, file the document, and copy everyone on that filing.

EPA's signature process is moving along nicely and I should be able to get EPA final signature immediately after getting ARCO's signature.

Andy is back from his short break, and all Anaconda legal matters should go to him. But for this one event, I will be handling its conclusion.

EPA is hoping that the ARCO payment can come in around Aug. 15. As ARCO gets a more clear understanding of that timing, please keep Dave Sturn at MO informed about that so he can handle the accounting and bookkeeping here.

Thanks for everyone's help on this.

Henry
